## EDUCATION

### Electrical Engineering

University of Miskolc

09/2018 - 02/2022

## WORK EXPERIENCE

### Software Engineer

GoTo (formerly LogMeIn)

04/2023 - Present

Continuing to work on our fast growing remote management site, now with nearly 170k devices

#### Achievements/Tasks

- Introduced AWS AppSync (serverless GraphQL API)

### Associate Software Engineer

GoTo (formerly LogMeIn)

01/2022 - 03/2023

Building a microservices based site from scratch for management of remote devices

#### Experience

- Frontend development with Lit (Google's frontend framework, similar to React)
- Backend development with Node for AWS Lambda
- Managing AWS infrastructure with Terraform
- CI/CD with Jenkins
- Unit testing with Jest
- Using MySQL with Knex.js queries
- Managing infrastructure of devices in AWS IOT

### Software Engineer Intern

GoTo (formerly LogMeIn)

07/2021 - 12/2021

Learning the basics of web development on frontend and backend side

#### Experience

- Javascript ES6
- CSS, HTML
- REST APIs
- git

### Electrical Engineering Intern

Jabil

04/2018 - 06/2021

Assisting electrical engineers with various engineering tasks

#### Experience

- PLC and microcontroller programming

## SKILLS

React

Typescript

Node

AWS Lambda

Terraform

Jest

SQL

CSS

Vite

Storybook

git

GraphQL

## LANGUAGES

English

Professional Working Proficiency

German

Elementary Proficiency

## INTERESTS

Hardware and software hobby projects

Sports like football and gym
